Electrical Exposition

SAN FRANCISCO
September 17th to 24th, inclusive

¶ All the latest electrical devices and machinery will be displayed.

¶ Just the thing that every progressive man and woman desires to visit and study. An education in itself.

¶ Be sure to take that boy. Let him see the wonders of this 20th Century Science. For full particulars see San Francisco papers.

¶ Special rate of a fare and a third for round trip on receipt certificate plan. One fare going and one third fare returning. On sale Sept. 12 to 24, good returning Sept. 17-27 inclusive.

For full particulars about rates ask Agents.

Southern Pacific

Local and Personal

Jesse Hayes was home from Stanford over Sunday.

Grandpa J. W. Brown celebrated his 85th birthday yesterday.

Carpenter work by day or hour, odd jobs. Shop at Miracle's lumber yard. A. W. Adams.

Grandpa Brown celebrated his 85th birthday yesterday by receiving callers in the afternoon.

Mrs. M. G. Kimball of Los Angeles is visiting her old time friends, J. A. Greene and family, of Central avenue.

James Green, of Penran, Placer county, is very ill with pneumonia at the home of his daughter, Mrs. Frank McKeon, on Central avenue.

Miss Lucy Joy is home for a three week's vacation from San Francisco, where she is training to be a nurse in the Children's Hospital.

George Davis, while picking peaches Tuesday, fell from a ladder and broke his arm.

Rev. Geo. E. Atkinson, of the Congregational Church who has been spending a few weeks at Soquel will be home and occupy his pulpit both morning and evening, Sunday Sept. 25.

E. H. Carter, whose orchard is on New Jersey avenue, recently sold eight sacks of prunes for nearly sixty-four dollars. Evidently this is the year when prunes are prunes.

Earl Gard who has occupied the little cottage opposite the cannery during the busy season, has recently removed to San Jose where he has secured a good position with the St. James Laundry.

Donald Marshman, who unfortunately hurt his foot on his trip home, has been quite seriously indisposed with the same for the past week. He is much better and was able to resume his studies at the Normal.

The San Jose Normal opened Tuesday of this week. Those who registered there, for a course of study for the coming year, from Campbell, were Winnie Fablinger, Phebe Farley, Matie Sawyer, Bessie Palmer and Gus Lancaster.

B. M. Clift who formerly ran the barber shop in Campbell in the Smith building on Campbell avenue, has purchased a shop in Richmond, north of Berkeley. His family who are yet in Campbell will follow him the first of the month.

F. S. Newcomb is with us again. He has been away nearly all summer building a cottage in Mt. Hermon. Campbell may look upon him for some time to come as a permanent resident. This, we at least hope, may prove the case.

Campbell can certainly congratulate itself on its extreme healthfulness this fall, particularly on the score of its juvenile contingent. There is not a case of measles, chicken pox, scarlet fever or any other of the usual fall diseases. This is marvelous when there isn't such a thing as a sewer in the town.

The Southern Pacific has recently oiled the main track from a point opposite Roemer's dryer on the Infirmary road to a point near the south end of the Campbell Fruit Growers' drying ground. This is done mainly for the purpose of allaying dust. It is the purpose of the company to extend the improvement generally.

A. C. Keesling reports that his daughter who has been seriously ill with scarlet fever is now on the road to recovery. Mrs. Keesling has a slight attack of tonsilitis, which it is sincerely hoped may not be the premonitory symptom of a new case in the Keesling home. Quarantine is still on and Dr. Wright of San Jose is the attending physician.

Ed. Barker of Central avenue has temporarily removed with his family to San Jose. He has secured a position as foreman in one of the departments of the American Fruit & Produce Co. which is located at San Carlos and the Narrow Gauge R. R. The family have only taken with them such household furniture as may be needed for their temporary absence.

The Boy Scout movement which is waking people up generally on this coast has not yet struck Campbell. In San Jose it is well under way in the fostering care of Judges Brown and Gosbey of that city. Why wouldn't it be a capital idea for own townships' officers Farley and Sharp to make some move in the matter? Surely Campbell is not exempt from its need.

Professor H. K. Kline of U. P. will deliver his lecture "The Church and the Social Question," at the M. E. Church on Sunday morning, September 25, at eleven o'clock. Mr. Kline is the professor of History and Economics at the University of the Pacific. He is a noble defender of the church and as this will be the only service of the day come out and hear him. You will not regret it.

E. E. Poston has recently patented the Poston Fireless Brooder which was lately exhibited at the State Fair in Sacramento and took the first prize. The distinctive features of the machine are its covering of feathers and its superior means of ventilation. One who cares to inspect the brooder to see how it is superior to the old forms can have the pleasure of doing so by calling at his residence on Gilman avenue where one is on exhibtion.

George B. Scofield, of the firm of Scofield and Durfee, attorneys at law in Marion, Ohio, the home of Ex-Governor Harding is now visiting his sister Mrs. D. M. Marshman. Not having seen him for 15 years, she is, of course, most delighted to meet him again. This is his first trip to California and coming by the way of Los Angeles he is very favorably impressed with the outlook in this State, particularly with that of Campbell and its surroundings.

Have you any prune wood for sale? If you have why not put a little ad in the Press, saying so. It will sell your wood for you.

Fine stationery at the Press Office.

School Supplies at the Press Office.

How many people in Campbell? This is a question asked every day perhaps and most variously answered. Today the Press offers something definite in the matter. E. R. Kennedy, the efficient water collector, submits the following as a reliable estimate: The number of people served by the Water Co. is 490, those who have their own supply by windmills, 25, floating population, 35. This is without doubt a conservative estimate and makes the population of the town 550.

Chas. L. Willett, a former resident of Campbell, has been spending a few days with his sister, Mrs. Sutter. He came up from Los Angeles to attend the celebration of the Native Sons' at San Francisco. He reports business booming in Los Angeles and much new building going on and the Eastern tourist contingent beginning to arrive which, as we well know, is the distinctive feature of Los Angeles' winter activity. There is quite a riot over the Hall of Records now in process of building in that city. Things have gone so far that an attempt has been made to dynamite the building.

E. R. Kennedy and B. O. Curry spent the greater part of the last three days of last week attending the California State Realty Federation which held its daily sessions in the Masonic Temple in San Jose, with headquarters at the Board of Trade rooms. J. E. Fisher of San Jose was elected president for the coming year. Mr. Kennedy reports that one of most distinctive features of the meeting was the banquet held at the Vendome on Friday evening last.

Recent Additions to the Campbell Free Library

Day in Court.
How to Help.
The Indian and his Problem.
The Conquest of Disease through Animal Experimentation.
Henry Clay, 2 vols., by Carl Schurz.

The Circuit Rider's Wife.

A good many books have also been presented to the Library during the present year. These are mostly novels, but one work, donated by Mr. I. Preston, deserves special notice, namely, Harper's Pictorial History of the Civil War. This is an immense collection, in two great volumes, of pictures illustrating the great contest, accompanied by a well written military history.

E. Janes, Librarian.

Electrical Exposition

San Francisco, the exposition city, is soon to hold another big show, this time attracting the attention of the whole electrical world. It is the Pacific Coast Electrical Exposition and it will be held at the Coliseum, September 17th to 24th inclusive. The exhibitors will be all the large electrical concerns of the United States, and the backers of the enterprise are among the most prominent businessmen of San Francisco. It will be the first exhibition of any character to be held in the new Coliseum. The building has the largest floor space of any public structure west of Chicago and the largest unobstructed area of any building in the world. Its area covers 61,875 feet. Every inch will be taken in the big electrical show now contemplated and for which exhibits are now in preparation.

Edward Churchill Sentenced to San Quentin for Seven Years

Liquor is a ruthless master. We see this practically illustrated in the fact that E. H. Churchill, who has recently been working as a painter for Charles Sutter of Campbell, was again arrested a few days ago for the theft of a bicycle. Here is a man of good education, physically O. K., and blessed with a trade, which rightly used should give him regular employment. As he had been on parole during the last few months for a similar offence, and previously for attempting to pass fictitious checks, it now seemed that further leniency was not advisable. Last Tuesday Judge Richards sentenced him to San Quentin for seven years. The fact that Churchill came to the dry and quiet town of Campbell would indicate that he was making some effort to get away from his enemy.

Republican Candidates Will Speak in Campbell

On Monday evening, October 3d, the candidates of the Republican party will speak to the people of Campbell at the Odd Fellow hall. Everybody invited, ladies included.

Special Prices on Watches

A good watch for $4.00. A 7-jewel warranted, boy's watch, $3.00. Hamilton and Illinois watches at regular prices, (as cheap as anyone can sell). Eight-day clocks at cut prices until Oct. 1st.

For repair work leave watches or clocks at the Press Office.

Loomis, The Jeweler, Cherry Avenue.

Social Entertainment and Dance

The entertainment and dance given by the Ada Rebekah Lodge Tuesday night was a great success. Owing to the illness of some of the participants the programme was rather short but what there was of it was certainly good. The programme was as follows:

Selection.....High School Orchestra
Remarks.....Mr. W. Copeland
Dialogue.....Miss Harriet Clark and Mrs. Nimmo
Reading.....Mary Clark
Selection.....Orchestra

Those who played in the Orchestra were Miss Merna Sawyer, Robert Sholz, Carl Sholz, Frank Stepka and Mervyn Keesling.

Mrs. Nimmo taking the part of Aunt Saphrona in "Aunt Saphrona at the Opera," was especially good. A tabourette made by Mr. Arnott was raffled off. Mr. Austin was the man to have the lucky ticket. A very enjoyable time was had at the dance following the entertainment. Home made candy and cornucopia's were sold during the evening. The Lodge cleared about $38.50. The benefits go to the Odd fellow Orphan's Home at Gilroy.

WANTED—Orders for engraved cards, wedding invitations, etc. The Press Office.

A Good Position

Can be had by ambitious young men and ladies in the field "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from $70 to $90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details.

ADVERTISED AT LAST

THERE was a merchant in our town
Who was so wondrous wise
He saw his business running down,
Yet would not advertise.

SAID he: "I cannot see the sense
When trade is at its worst
Of multiplying my expense.
I'll wait till trade comes first."

AT last this merchant, ill advised,
Had naught to do but fail,
And then the sheriff advertised
A bankrupt auction sale.

School Supplies at the Press Office.

Trouble! TROUBLE! **Trouble!**

Trouble all day and every day with two pairs of glasses.

Wear **KRYPTOKS.** One pair of glasses will then do the work of two. No trouble at all. Just put them on and see, see everything near and far, your friend across the room or across the street as well as the book or paper in your hand.

Don't be talked into buying a substitute. Get the genuine. Ask for Kryptoks.

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our Neighbors in the Far West Reviewed.

What Has Transpired on the Border of the Broad Pacific From Alaska to Mexico.

San Francisco.—Abraham Ruef's appeal from the 14-year sentence imposed by Judge Lawlor will be heard before the appellate court Monday, October 17th.

San Francisco.—The 500 tons of scrap iron, relics of machinery and gear used in the French operations on the Panama canal, shipped hereby the Government, was sold at auction for $5,040.

Washington.—A first dividend of 15 per ... the creditors of the de... National Bank of Rhyolite, ...eclared last week by the ...f the Currency. The bank ...arch 19, 1910.

...hn Treacy, a farmer of ... Upper Fruitvale, a ...quin Miller, fell off his ...iedmont avenue, while ...e from Oakland and ...rn off and his face ...

...rs. Alice Stebbins ...woman patrolman ...e Pacific Coast. ... will be among ...her places where ...likely to be led ...

...lbert F. Phifer, an ...arrested and charged ...g stolen $355 from the body of S. C. Winchester, a Philadelphia tourist, who died on an Overland train near Needles. Phifer assumed charge of the remains. The police say he has confessed and returned $200.

Seattle.—The insurgent victory in the Republican State primary election has exceeded all expectations. Miles Poindexter of Spokane, one of the most radical of the insurgents, has been nominated for United States Senator by a great plurality, which his headquarters in this city estimates at 30,000.

Eureka.—The County Supervisors have let a contract for constructing a seven-span reinforced concrete bridge over the Eel river 12 miles south of this city. The bridge is to be 2,900 feet long, including approaches, and 24 feet wide, and constructed to accommodate the electric railway track in addition to the roadway for general traffic.

Pomona.—The thirty-seventh annual State Fruit Grovers' convention held here was the most successful gathering of horticulturists ever held in the Pomona Valley, 600 visitors from different parts of the State having been present. The convention passed resolutions looking toward the betterment of the citrus fruit industry in California. These will be presented to the State Legislature.

San Francisco.—The name of "Fighting Bob" Evans heads the list of directors in the articles of incorporation filed by a new oil concern with the County Clerk. Not that the popular designation here quoted is used in the formal document, which brings into legal existence the Consolidated Oil Company, but his name is there, nevertheless, although disguised as simply Robley D. Evans.

Los Angeles.—Very quietly Chinese merchants of this city have been importing pig iron from the mines at Hankow until it is estimated that quite 5,000 tons have been used in buildings in this city in the last few months. These Celestials, who are competing with the American steel trust, declare that it is only a matter of a few months until the entire Pacific Coast will be using the Chinese product.

Livermore.—The grape crop this year throughout the Livermore and San Ramon valleys will be the lightest in years, vineyardists reporting that they will only get one-half, or possibly two-thirds of the usual yield. Various reasons are assigned for the small crop. Some vineyardists declare it was caused by the cold, windy weather when the vines were in bloom, while others blame the recent hot spell, which resulted in many grapes dropping from the bunches.

FACT STRANGER THAN FICTION

Had to Kill Goat to Recover Bill and Prove Boy's Honesty

Washington.—This tale of a goat is arranged chronologically:

A woman in Detroit wanted a new hat and drew a $10 bill out of a bank.

A gust of wind whisked it out of her hand.

A small boy driving a nanny goat to a cart happened by and the ten fluttered under nanny's nose.

Nanny gobbled the bill.

The woman accused the boy of stealing it.

By the time a policeman arrived the goat had swallowed the bill. The boy proved his innocence and recovered the bill by killing the nanny.

The Treasury Department issued a new bill.

Woman Puts On Stolen Trousers and Defies Clerk to Take Them

Bay City, Mich.—A woman said to be the wife of a postmaster in an adjoining county, went into a store here and asked to see a young man's suit of clothing. She asked the clerk if she might step into another room and try on the trousers, saying her son was the same size as herself. When she came out she had her skirt on as usual, but no trousers were in sight, and she started away without paying for them. The clerk asked her to settle and defied the clerk to take possession of his employer's property. He had to call a policeman, and the trousers were not recovered until she was arrested and stripped by a matron.

City Employe's Ten-Cent Bill Had to Be O. K.'d 18 Times

Los Angeles.—Because of red tape, a storekeeper who tested the matter found that a bill for 10 cents had to be O. K.'d 18 times by men at the City Hall before he could get his dime. The janitor at the City Hall wanted a package of bolts. After a few yards of red tape had been unfolded he got 10 cents' worth. Then the storekeeper presented his bill. He told Councilman Washburn of his adventure in getting it approved by 18 officials and the Councilman is convinced that reform is needed in the way the city does business.

College Girls Best Smokers.

Pittsburg.—Declaring that young women of the fashionable seminaries and "finishing schools" are the best patrons of the cigarette dealer, the woman's organization of the National Association of Retail Druggists adopted resolutions condemning women smokers. Mrs. William Lee, president of the organization, said that an Eastern tobacconist had asserted that the college girls were among the best cigarette customers.

Crack Marksmen Poisoned at Banquet.

San Francisco.—Excellent work at target practice proved disastrous to twenty-five men of the Twenty-seventh Coast Artillery. As a result of a complimentary dinner given them by Captain H. R. Casey, commanding the company, for their fine marksmanship, this number were taken severely ill from ptomaine poisoning. All recovered.

Loses Hand and Foot by Electric Shock

Berkeley.—Captain C. W. Jones of the dredger Oakland lies at a hospital in this city as the result of receiving 11,000 volts of electricity, which passed through his body when a high-power feed wire broke. His right hand and left foot are burned to the bone, and the physicians believe that it will be necessary to amputate both members.

Took Time to Consider.

Oakland.—After obtaining a marriage license, it took Frederick Schiller, a chef residing at 614 Natoma street, San Francisco, and Miss Pauline Couchin, a manicurist, aged 22 years, four months to decide whether or not to marry. They were joined in wedlock by Justice George Samuels.

Would-Be Suicide Recovers.

New York.—Vera Fritch, the beautiful San Francisco girl who attempted to kell herself in the parlor of a New York hotel because her writings were refused by Eastern magazines, has entirely recovered.

Police Raid Chinese Gamblers.

San Francisco.—One Chinaman and seven white men were caught in a police raid on a Chinese gambling game. The Chinaman put up $20 bail and $10 for each of his 'customers." All bail was forfeited.

Death of Prominent Citizen.

Los Angeles.—Horace Boynton, president of the California Club and leading citizen, is dead of heart failure, the result of anesthetic administered for a minor operation.

WORLD'S NEWS OF THE WEEK SUMMARIZED

Adventures of the Children of Mother Earth Related in Condensed Form.

Comprehensive Review of Passing Events in Every Quarter of the Terrestrial Globe.

Albany, N. Y.—More than 128,000 hunters' licenses have been issued in New York State for the fall shooting season.

London.—This city is about to establish a bank for the purpose of loaning radium, which is valued at $5,000 a grain, to physicians for use.

Houston, Tex.—The Missouri, Kansas and Texas Railway system has raised the wages of its telegraphers by amounts of from $7.50 to $13 per month.

Portsmouth, O.—W. N. Davidson, Chief of Police, who was arrested and fined because he brought liquor into this local option territory and "treated" several friends, resigned.

Berlin.—The agitation against the restrictions placed on the importation of foreign meats is increasing. The domestic supply is inadequate and the people are demanding American meats.

Washington.—During the next few weeks the few national banks in the United States rated as "weak" will have their last chance to strengthen themselves or get out of business. This is the ultimatum announced by Controller of the Currency Murray.

Baden Baden, Germany.—The latest type of Count Zeppelin's inventive genius met with disaster when the dirigible balloon, Zeppelin VI. took fire after an explosion while being warped into her shed. The whole structure was destroyed. There were no fatalties.

Washington.—Pearls are growing on cocoanut trees in the Malay peninsula, and the novel discovery has been made the subject of a special report from Consul General Dubois to the Department of Commerce and Labor. The pearls are said to be not unlike those of the oyster.

Wheeling, W. Va.—The longest bar in the world is in operation at the fair here. It is 350 feet long and is manned by 120 bartenders and 30 cashiers. It is estimated that $12,000 was taken in in one day. Fifty glass washers are kept busy. Wheeling in fair week has the lid off.

New York.—The number of trades represented by labor unions in Greater New York now exceeds 1,200, according to reports gathered for the United Trades Council. Among the new unions formed during the past month are organizations among the forceps finishers, umbrella makers, women's comb makers and Jewish bookbinders.

New York.—The largest school of whales ever sighted by an ocean liner was discovered off the Newfoundland banks by the lookout of La Gascogne, which arrived here from Havre. Passengers were able to count fifty of the mammals in sight at once and the sea was so crowded with them that the liner bumped squarely into two of them.

Washington.—While about to board a south-bound suburban car into the city, where she intended to purchase the final articles for her trousseau, Mrs. Eliza E. Williams, who was to have been married soon to Warren K. Jessup of Los Angeles, was struck by a trolley car and instantly killed. Her husband was run down by a freight train several years ago and killed within sight of his home.

Washington.—What is declared to be the largest auction sale of lands ever offered at one time will take place on the Crow (Montana) and the Uintah (Utah) Indian reservations on October 15th and November 1st next, respectively. About 1,500,000 acres of land, suitable principally for dry farming and grazing are involved in the sale, which was ordered by the President and the Secretary of the Interior under directions from Congress.

Newark, N. J.—Mayor N. H. Hopkins of Branchville, N. J., is the first man on record to officiate at an encounter between an automobile and a bull. The Mayor was driving his new car, which is painted a bright crimson, when a bull essayed to test his strength against the sixty-horse-power energy of the automobile engines. The bull charged head-on and was knocked ignominiously against the fence at the side of the road. The car kept on. The only damage, except to the bull, was a broken lamp.

On These Platforms Republicans and Democrats Seek Endorsement of the People

REPUBLICAN PLATFORM.

The following is the platform adopted by the Republicans at the State convention of the party held in San Francisco recently:

The California Republican State convention hereby declares the continued allegiance of the Republicans of California to the Republican party, and to the progressive Republican policies enunciated by President Roosevelt and re-affirmed and already in part enacted into law under the administration of President Taft. We recommend President Taft in his efforts and announced intention further to carry out these policies, and look to our Senators and Representatives in Congress to co-operate with him to that end.

We declare our unswerving adherence to the Republican doctrine of protection without which the American standard of living cannot be maintained. We hold that the true measure of protection is the difference in the cost of production and distribution at home and abroad. Less than this is unjust to the American laborer and producer; more, it is unjust to the American consumer.

We believe that the methods of trade and barter heretofore prevailing in the framing of tariff bills have resulted in unsatisfactory tariff laws. We therefore join with the President in demanding the appointment of a permanent tariff commission, wholly removed from the possibility of political pressure or improper business influences. Such a commission should ascertain the difference between the cost of production, which is mainly the difference of labor cost, and the distribution here and abroad. As fast as its recommendations are made Congress should revise one schedule at a time. We oppose any future general revision based upon insufficient data to determine the amount of protection actually needed.

The Republican party of California repudiates the dominating influence heretofore exercised in the councils of the party organization and in the conduct of the government of the State by the Southern Pacific railroad and allied corporations. We call upon the legislative and executive officials now about to be elected to eliminate that influence from all participation or control in the governmental affairs of the State. We recommend the value of the services of all transportation companies and we make no attack upon the legitimate business of the Southern Pacific railroad or any other corporation. But we deny the right of any corporation to usurp the functions of government or party management and we expect a Republican Governor and Legislature to take such action as will terminate that control.

We repudiate also the domination of like interests, insofar as it has been manifested in the national government and in national politics, and call upon our representatives in Congress, irrespective of their past attitudes on the immediate parliamentary issues raised by the insurgents in the last Congress, to join with the progressive forces in needed reforms in the methods of Congress, and in the elimination from control therein of the reactionary forces.

The system of direct primary nominations has justified itself by results. It has eliminated log-rolling and trading, the stock resources of the political boss, and has substituted the directly expressed will of the party members. We commend to the people of California the Republican candidates thus chosen by the Republican voters at the primary polls, who will be led to victory next November by those fearless leaders of the people's cause, Hiram W. Johnson and Albert J. Wallace.

In practice the present primary law has shown itself cumbersome and complicated in some of its details. We recommend to the next Legislature such simplification of the law as may be found practicable.

We recommend the enactment by the next Legislature, and transmission to Congress, of an act or joint resolution favoring an amendment to the constitution of the United States, providing for the election of the United States Senators by direct vote of the people, and pending the adoption of this federal amendment, such a revision of the primary law of the State as shall afford a State-at-large advisory vote as to the election of United States Senators.

We recognize that the principal achievement of this first primary election in California, and of the State government to be elected at the general election following it, must be the destruction of the system and the influences which have hitherto hindered constructive legislative and administrative reforms. Unless this is done, nothing else can be undertaken with the hope of success. But this being now assured, it becomes possible to inaugurate a comprehensive plan of constructive legislation, and we recommend to the Legislature and the Governor the following measures:

1. A constitutional amendment providing for a shorter ballot, reducing to a minimum the number of elective offices, and thereby relieving the confusion caused by a multiplicity of candidates for minor offices.

2. The restoration of the true Australian ballot as originally enacted in California, without party circle or party column.

3. The placing of the names of judicial candidates on such ballots without party designation.

4. The submission to the people of constitutional amendments, providing for direct legislation in the State, and in the county and local governments, through the initiative, the referendum and the recall.

5. A county government act which shall provide an improved system of county government, with the greatest possible measure of home rule compatible with necessary uniformity.

6. Such revision of laws of criminal procedure in this State as shall make the administration of justice more speedy and certain, and prevent the delays in the punishment of criminals and escape of offenders upon technical grounds not connected with the guilt or innocence of the accused.

7. The enactment of laws for the establishment in California of a modern reformatory for first offenders, so as to make it possible to apply effective reformative treatment, and to separate from the older and confirmed criminals the first offenders and younger prisoners, whom experience has shown can be permanently reformed by proper discipline.

8. The elimination of partisan patronage from the administrative departments of government, and in general the introduction of the merit system in public service.

9. Systematic examination of the business and accounting methods of the various State and county offices with a view to introducing a system of uniform accounting and providing the highest degree of economy and efficiency now made practicable by the development of modern business methods.

10. We heartily approve of the admirable policies of national conservation initiated by President Roosevelt and organized by Gifford Pinchot. We recommend the enactment by the Legislature of 1911 of measures to prevent the further monopolization in perpetuity of the State's water powers, permitting the use of such water powers by private capital only for a definite period, and on terms fixed by the State. Following this, the appointment of a commission to recommend to the succeeding Legislature a comprehensive plan, which, without conflicting with national conservation, shall apply similar standards to the conservation of such natural resources as now are or may hereafter come under the jurisdiction of the State, including water power and irrigation not already covered by vested rights, drainage and reclamation; the proper conservation of mineral resources and the protection of State and privately owned forests.

11. In the contest between the wage-worker and the capitalist we stand for the square deal for both, and favor legislation by State and nation which will improve the conditions of labor and best conserve the source of all wealth—human life. We recognize that the wage-earner has the same right to organize for the improvement of the conditions under which he labors that the capitalist has to use his capital in corporate enterprises. Both forms of organization should be given equal opportunity before the law to carry out their legitimate aims.

12. An employers' liability act which shall put on the industry the charges of its risks to human life and limb along the lines recommended by Theodore Roosevelt.

13. The better definition and limitation of the rights of the courts in the issuance of injunctions in labor disputes along the lines recommended by President Taft to the last National Republican Convention.

14. Such additional legislation or constitutional amendments as may be necessary to make the State Railroad Commission fully effective, including provisions for the physical valuation of railroad properties as one essential step toward a true basis for the fixing of rates, provisions for a uniform system of accounting, for giving the commission power to initiate action, and such further provisions for the regulation of rates and services as shall fully and effectively protect the rights of both the people and of the railroads.

15. The submission to the judgment of the voters of California of a constitutional amendment providing for woman suffrage.

16. We declare our faith in the unswerving opposition of the people of California to the further admission of Oriental laborers, and we urge upon Congress and the President the adoption of all necessary measures to guard against this evil.

17. We urge Congress to provide for the prompt establishment of a Government line of steamships between Panama and Pacific Coast ports.

18. We indorse the proposed Panama Canal Exposition and urge upon Congress the recognition of the claims of San Francisco as the proper location for such an exposition.

19. We pledge our representatives in the Legislature to work and vote for the amendment to the Constitution of the United States, recently submitted to the various legislatures by Congress, permitting an income tax to be levied.

We demand the strict and vigorous enforcement of the anti-trust laws against all offenders.

We recommend to the favorable consideration of the voters of California the propositions to be submitted to them at the coming election providing for the improvement of the public roads and for the improvement of the harbors of San Francisco and San Diego.

On this platform of progressive Republican principles, we invite the cooperation and aid of all citizens to the end that the candidates chosen by the Republican voters of California may be elected and the policies herein enunciated successfully carried into effect.

DEMOCRATIC PLATFORM.

The following is the platform adopted by the Democrats at the State convention of the party held in Stockton recently:

We denounce the Payne-Aldrich tariff law as a gross violation of the solemn promise made to the American people by the Republican party in its Chicago platform of 1908, under the false plea of protecting American labor. A Republican administration has vested favored interests with the power of levying and collecting tariff taxes upon the whole American people, without making any provision that those who collect taxes should divide any part of them with the American laborer, in whose ostensible behalf they are levied.

We reiterate the declaration of our platform four years ago: "The emancipation of California from Southern Pacific domination overshadows every other public question." We pledge our nominees to the accomplishment of eliminating all pernicious corporate influence from our public affairs. We congratulate the Democrats of California for having selected candidates whose public record and high character guarantee that this work will be done.

We stand for the following:

1. The equal protection and enforcement of the law.
2. Retrenchment and reform in public expenditures.
3. The elimination of party politics from all our public institutions, including our schools.
4. An honest, efficient public service.
5. A nonpartisan judiciary.
6. The removal of the party circle from the ballot.
7. The expulsion of all Asiatic labor.
8. The eight hour law and the child labor law, as promulgated by the American Federation of Labor.
9. A reformatory for first offenders.
10. A simplified criminal procedure.
11. A simplified direct primary law and the selection of United States Senators by the direct primary vote of the people.
12. The initiative, referendum and recall in State and local governments.
13. Strict regulation of all public service corporations and the physical valuation of their properties for the purpose of protecting the public from exorbitant rates and discrimination.
14. An active, honest and efficient discharge of the duties incumbent upon the State Railroad Commission.
15. Internal improvements, including particularly the improvement of highways, waterways and harbors.
16. The improvement of our school system, including practical training and preparation in the usual arts, trades and occupations, compulsory education and avoidance of the practice of frequently changing the textbooks.
17. The fostering of the agricultural, horticultural, viticultural and livestock industries of California.
18. The encouragement of manufacturing to the end that our domestic wants may be supplied by home industry.
19. Publicity in the conduct of the State Fish and Game Commission, showing in detail the work done and the particular items of receipt and expenditure and the removal of special privileges in the protection and propagation of our fish and game.
20. The adoption of the Sanford bill, preventing Asiatics, who are not eligible to citizenship in America, from owning or leasing land in California.
21. The establishment and operation by the Government of a steamship line between Pacific Coast points and the Pacific terminus of the Panama railway.
22. The conservation of remaining natural resources for the benefit of the whole people and the enactment of laws which will forever prevent their seizure and control by private monopoly, and to this end we urge the exercise of all powers, National, State and municipal, both separately and in cooperation.

DRINK DOLE'S
Pure Hawaiian Pineapple Juice

The Pure, Refined Juice of "Picked Ripe" Hawaiian Pineapple—Bottled Right.

A new product; a new drink; a new appetizer; and a new healthful habit.

It's Pure—Drink it Pure

Nothing has been added to the juice at any stage of the refining process—no sugar, no water, no preservative—literally and absolutely nothing. We simply free the juice from such coarse matter as will filter out and then sterilize it in the bottle.

It's Hawaiian Pineapple

Grown under the tropical skies of Hawaii. The juice of a ripe Hawaiian Pineapple is just a mixture of dew, sunshine and oxygen. It is purer than spring water.

It's the Drink Delightful

Clear as crystal, beautiful as liquid amber, smooth, mellow and satisfying to the taste; Dole's Pure Hawaiian Pineapple Juice is as much an appetizer as a cocktail, which in fact it can easily replace. Non-alcoholic of course.

Where to Find It

Ask the man at the soda fountain for a glass or a bottle; or ask your grocer for quarts, pints or smaller bottles. If you should not easily find Dole's Pure Hawaiian Pineapple Juice, write us for booklet and directions where to get it. Send for this useful menu booklet anyway.

James D. Dole

Worms

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape-worm 45 feet long. It was Mr. Matt Breck, of Millersburg, Dauphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood." Chas. R. Condon, Lewiston, Pa., (Mifflin Co.)

CUT THIS OUT, mail it with your address to the Sterling Remedy Company, Chicago, Ill., and receive a handsome souvenir gold Bon Bon FREE.

The New Flavor
Mapleine
(Flavor of Maple)

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not send 35c for 2 oz. bottle and recipe book.

CRESCENT MFG. CO.

READERS of this paper desiring to buy anything advertised in its columns should insist upon having what they ask for, refusing all substitutes or imitations.

ATCHISON GLOBE SIGHTS.

The trouble with luck is it is mostly of the wrong kind.

Some homes always look as if the family has just moved in.

About the only vacation some people get is in interruptions in their work.

A woman is immensely flattered if her husband tells her she is "broad minded."

As soon as we get rid of one difficulty, we usually find another waiting to take its place.

The only people who really have a good time are those who enjoy being imposed upon.

Occasionally you meet a man who dislikes to attract attention. But such men are extremely rare.

There are a good many devils in the world, according to the man who always wants to give the devil his due.

The older people get, the less regard they have for looks in their "nighties," and the more for comfort.

Women use the same expressions of sorrow in telling of a disappointment in a dressmaker as of a disappointment in love.

A man was trying to speak of a pacifier to-day, and referred to him as "peaceifier." Why isn't "peaceifier" a good word?

New York Farms.

A farm in central New York, bought a few years ago for $15 an acre, produced two years later a crop of peas worth more than $50 an acre. This incident, considered in conjunction with the fact that many farms can be bought for even less than the value of the buildings standing on the land, is used in a bulletin by Commissioner Pearson of the state agricultural department to indicate the possibilities of agriculture in New York.

This publication also gives the value of crops in this state for a period of 40 years, showing that New York is the fourth state in agricultural importance. A significant feature of the statistics is that while in 1875 New York raised 35,000,000 bushels of potatoes, valued at $10,985,179, last year it produced 34,850,000 bushels, valued at $26,138,000. Similarly increased value is shown in other crops, while the volume is about the same.

JUST THE WORK FOR A WOMAN.

Viavi representatives make from $500 a year up selling the Viavi Remedies. Most successful system of treatment known. We will give you instruction and training. Write us for particulars. The Viavi Co., Inc., 636-652 Pine St., San Francisco.

The Doctor Explains.

Deacon Giles—Doctor, there's a question I have been wanting to ask you. In what language did the ass speak to Balaam?

The Rev. Dr. Fourthly—In its own language. Balaam had been making an ass of himself and he had no trouble in understanding.

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

Further Time Needed.

Aspiring Politician—Gumbridge, you heard my speech last night. Now that you have slept over it, tell me frankly what you think of the effort.

Trusted Friend—To tell the truth, Rickaby, I—I slept under it. You'll have to let me see the manuscript.

Pettit's Eye Salve.

No matter how badly the eyes may be diseased or injured, restores normal conditions. All druggists or Howard Bros., Buffalo, N. Y.

Professional Pride.

In a Christmas fairy play in Paris a set of dominoes was represented by men wearing on their backs boards marked with the different numbers. One day, a writer in Le Figaro states, a "super" gave in his resignation, and told the manager he must find a substitute.

"Why, what's the trouble?" asked the manager. "Don't you get fifteen sous a night, like the others?"

"It isn't the sous at all," said the "super," haughtily. "I am one of the oldest artists belonging to the theater, and I think you ought to have made me double six; instead I am the lowest number—double aught."

Trouble Ahead for Percy.

"Miriam," said her mother, "Percy Flaxham is an excellent young man, with desirable family connections, and upon the whole I have no objection to your receiving him on a familiar footing, but you must not allow him to presume upon the fact that you have accepted a present from him."

"I won't, mamma," said the proud young beauty. "If he gets chesty over it I'll give him the clammy flipper the next time he blows in here."—Chicago Tribune.

Its Distinguishing Feature.

Sprockett—You've talked a good deal about your new automobile. What is there so specially attractive about it?

Sparker—When I come along with it this afternoon in front of your place of business just you take a good look at that girl on the front seat.

It took thirty-five years to build up a church of six members in China, but since 1900 there have been 50,000 natives converted to Christianity.

A diplomat is a person who has acquired the art of declining to take "no" for an answer to a request for a favor.

Women constitute 5.5 per cent of the convicts in American prisons.

The average man can't understand why he has enemies.

AUTO GOSSIP

San Francisco.—O. K. Parker, of Los Angeles, and family have just passed through town en route for Lake county in their Buick "40" car. The machine, which had come from Los Angeles by the coast route, was well loaded with fishing, hunting and camping outfit, besides carrying five passengers. On the way up a week was spent at Monterey in touring the surrounding drives. After about two weeks in Lake county, during which time Parker will cover a large part of that section with the Buick, he will return to San Francisco and from here make a run to Lake Tahoe and thence back by way of the valley to Los Angeles.

The car is wearing Goodyear tires and to date not a puncture has been suffered.

In a remarkable run of thirteen days J. B. Linezey, of Denver, has just lowered the record from that city to Los Angeles by three days with a Thomas "60" car. The entire trip of 1657 miles was made without a single accident. Monogram oil was the lubricant used.

Significantly indicative of the possibilities of the smaller horsepower, light cars, is the fact that a model "T" Ford has just completed a 850 mile run from Dallas, Texas, to El Paso, Arizona, in six days, being the first machine, irrespective of size, to make the trip on its own power.

What is called "A Tour of Mystery" is the latest invention in motordom. According to advices received by the Hugo Muller Auto Co., this tour was arranged by the Premier distributors of Indianapolis for privately owned Premier cars, about fifty of which competed. The passengers, all told, totaled about 200. Only two persons in this entire party knew where the course was to lead, the only instructions given being to follow the confetti. Starting from University Park, Indianapolis, the patfinder, which was one of the cars that had competed in the Glidden Tour, took out through the quaintest section of Indiana, which was dotted with little secluded Dutch hamlets, where wooden shoes and long clay pipes still did service. An interesting feature of the day was a guessing contest held just before the start of the tour as to where it would lead. Valuable prizes of auto accessories were awarded those who the most nearly guessed out the course. On the return trip a picnic in a grand old grove, where the grass was spread with a fine repast, added pleasure to the outing.

It is rumored that Harold Stone, the well known automobile driver of Southern California, is contemplating going into vaudeville with a Moline car as a stage partner. Stone seems convinced that this machine is versatile enough to go through a long course of stunts with no greater area in which to perform than the average vaudeville stage. It will be remembered that Stone, some months ago, astonished the Los Angeles motor public by taking the Moline around the little saucer motorcycle track at the Coliseum for five miles on an average of better than a mile per minute.

A notable feature of Diamond tire use this season has been the number of contesting machines in long endurance runs that have used the Diamond equipment with marked success. The St. Louis Manufacturers' and Dealers' three-day 410 mile reliability run, as far as tire equipment is concerned, afforded the usual proof of this. A total of thirty cars made the run.

A hard gruelling grind from start to finish is what the newspapers said of the tour. But the bad roads only served to show Diamond tire worth. A third of the contestants made the run on Diamond equipment. The winner of the event was a National car on Diamond tires, while a Columbia on Diamonds tied for second place. Neither car had a particle of tire trouble during the entire trip.

San Francisco.—The Frank O. Renstrom Company is in receipt of news that the Kline-Kar has added another victory to its already long list of successes for the season of 1910. The little Meteor "6-40," driven by C. C. Fairman of the Kline-Kar factory, came out in first place in a six-hour endurance run held at Point Breeze track, Philadelphia, last week. The distance covered was 250 miles. The Kline-Kar people anticipate building a "4-40" model for the season of 1911.

San Francisco.—M. D. McCoy, secretary of the Chanslor & Lyon Motor Supply Co., and manager of the local branch, has just returned from Bohemian Grove, where he attended the recent high-jinks. He declares the fete one of unusual success.

San Francisco.—Advices from the factory state that two car loads of Premiers are en route to the Hugo Muller Auto Company, local distributors of these machines. The major part of these cars will go out on delivery so soon as they arrive.

San Francisco.—Fred Wagner, who has started on the transcontinental tour in an Auburn car, carries a supply of Monogram Oil. This lubricant will be used throughout the trip.

A Good Hair-Food

Ayer's Hair Vigor, new improved formula, is a genuine hair-food. It feeds, nourishes, builds up, strengthens, invigorates. The hair grows more rapidly, keeps soft and smooth, and all dandruff disappears. Aid nature a little. Give your hair a good hair-food.

Does not change the color of the hair.

Ayer's — Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

You need not hesitate about using this new Hair Vigor from any fear of its changing the color of your hair. The new Ayer's Hair Vigor prevents premature grayness, but does not change the color of the hair even to the slightest degree.

—Made by the J. C. Ayer Co., Lowell, Mass.—

The Organist's Fox Pass.

"At that wedding last night," said Mrs. Lapsling, "the organist made the worst mistake I ever heard of. He played Meddlesome's wedding march when the bridal party came in and the march from 'Lonergan' when they passed out."—Chicago Tribune.

CLOSING OUT

500,000 rolls of fine Wall paper at 3 cents per roll and up. Paint $1 per gallon. Write for free samples of wall paper and color card of paints. J. L. Ash, 473 McAllister street, San Francisco. Mention this paper.

Many a woman has lived to regret the day she discovered her affinity.

You Can Get Allen's Foot-Ease FREE.

Write Allen S. Olmsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot, swollen, aching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

Not Particularly Impressed.

Mr. Upsome—You had a good time seeing the Riviera while you were abroad, I presume.

Mr. Struckett-Ritch—Er—yes, but one performance was enough for me. I've seen it played lots better right here in Cincinnati.—Chicago Tribune.

First of a Numerous Tribe.

"Richard," said the teacher, "what is your idea of that ancient implement of warfare known as the battering ram?"

"The battering ram," answered the young man with the bad eye, "was the original Buttinski."

PATENT ATTORNEYS

DEWEY, STRONG & CO.—Founded 1860; U. S. and foreign patents; inventors' guide, 100 mechanical movements free. 1105 Merchants' Exchange Building, San Francisco.

Fines in Germany.

The German workman who the other day was fined in a London police court probably considered that he had a genuine grievance when he complained that, in addition to the fine, his compulsory attendance at the court had lost him a day's pay. For they do these things better—at any rate, from the delinquents' point of view—in the fatherland. For what may be described as a trivial offense the worker is not compelled to attend the court, and the amount of the fine is collected from him at his house by a policeman. In the event of a more serious though still comparatively venial breach of the law, punishable by a short term of imprisonment, justice is satisfied if he works off the time by installments Sundays and holidays.—London Chronicle.

Assist Your Weak Stomach

Oftentimes the Stomach needs some assistance in its great work of digestion and assimilation and an occasional dose of Hostetter's Stomach Bitters will give that assistance better than anything else you might take. Its merit has been proven thousands of times in cases of Poor Appetite, Headache, Indigestion, Dyspepsia, Costiveness and Malarial Disorders. Be persuaded to try a bottle today. Refuse substitutes.

WITHOUT ARMY, NAVY, POLICE

Little Nation Less than Half the Size of Greater New York.

They come together like the teeth of a dog, do the frontiers of France and Spain, and between the teeth is a bone—such a small bone that one wonders why it was not swallowed up long ago, and the name of the bone is Andorra.

"The whole area of this lonely little nation is something less than half that of Greater New York," says a writer in the Metropolitan, "and its entire population does not equal that of one of New York's great office buildings.

"For want of a better name the geographies have called it a republic, but the Andorrans part their allegiance carefully in the middle, as they do their hair, dividing it (the allegiance, not the hair), between the pope and the French President.

"If Tolstoy himself had framed its government he could not have built anything more after his own heart. The heads of families—the patriarchs of Scripture—elect representatives who several times each year saddle their mules and go riding down to the 400-year-old Parliament House, where it nestles cosily in the mountain valley of Andorra la Vieja, to make such few and simple laws as the well-being of none is needed.

"So slight are the expenses of government in Andorra, for all told there are but four salaried officials, that a small poll tax on goats and sheep amply meets them all. There is no army, even of the smallest—for who is there to fight? There are no police.

"When I was in Andorra," the writer says, "the prison—there is but one—was used as a poultry house. There is no fire department, for the houses are all of stone. There is no coinage, for the people pay in kind. No postal system is there either, for when an Andorran writes a letter, which rarely happens, he entrusts it to some accommodating person who is going over the border into France or Spain."

Asking Too Much.

"Kitty, you didn't put anything in the contribution plate when the usher came around."

"Well, he didn't have any change for my nickel, mamma. Did you think I was going to give him all of it and go without gum for a whole week?"

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

One Quiet Spot.

"This," said the chauffeur, pointing to a large and imposing mansion, surrounded by beautiful and well kept grounds, some distance back from the roadway, "is the only place around here where they have an absolutely safe and sane Fourth of July."

"What place is it?" asked one of the passengers.

"It's the county insane asylum," answered the chauffeur.

Parceling It Out.

The gypsy moth and the English sparrow had agreed upon an amicable division of the earth.

"That suits me," said the German carp. "I'll take the waters of the earth."

The Orang-Outang's Nest.

For the first time Londoners have now and opportunity of seeing an orang-outang in its "nest," or sleeping platform, Dr. Charles Hose having recently presented to the national museum a fine adult male of this Bornean ape, together with a specimen of the nest.

Dr. A. Russel Wallace in his "Malay Archipelago" states that orang-outangs build their sleeping platforms comparatively low down on relatively small trees at a height of from twenty to fifty feet above the ground, probably for the reason that such a situation is warmer and less exposed to wind than one higher up. According to Dyak report, each orang builds a fresh platform every night, but this, as Dr. Wallace remarks, is improbable on account of the relatively small number of these structures to be met with. It may be added that the large amount of materials in the nest in the British Museum affords further evidence of the same kind. Photographs are extant showing three or four orangs' nests in a single tree.—The Field.

John and the Franchise.

A woman suffrage lecturer in England recently brought down the house with the folowing argument: "I have no vote, but my groom has. I have a great respect for that man in the stables, but I am sure if I were to go to him and say, 'John, will you exercise the franchise?' he would reply, 'Please, mum, which horse be that?'"

Contrast.

"Can I sell you some of our Red Cross stamps?"

"Sure! It's a pleasure to use Red Cross stamps. They stick so much better than Uncle Sam's."

The army is experimenting with transmitting bugle calls for long distances with the aid of the megaphone.

If given three guesses could you guess why a married man seldom has any use for a phonograph?

Even a worthless man thinks he'd be able to make good as a critic.

One can't always find conservative people in a conservatory.

A Farmers' Training School at Campbell

By I. W. SNOW

Now-a-days it is a well-accepted proposition that if a man desires success as an engineer, miner, electrician he must have a special training and that, other things being equal, the better trained a man is the greater will be his success. The day was when, from our standpoint, quite an ordinary man could build a railroad. Time brought hard problems and the men of yesterday solved them and as with the passing years the tasks have become more difficult and more complex, their capacity and ability to meet and solve them has kept pace until to-day a Pennsylvania terminal is a possibility and a reality.

Not so with the agriculturalist. With time and the growing complexities of our modern civilization there have come such problems as impaired fertility of the soil, insect pests, marketing, cultivation, and many others. One of the chief difficulties of the agricultural situation lies in the fact that, unlike the engineer, the farmer has not developed hand in hand with the unfolding problems of his vocation and has not realized till recently that his calling requires any special aptitude or training; and has tacitly accepted the proposition that he who can go thru the notions of plowing, sowing and harrowing, or of planting a tree, cultivating it and picking its fruit, is a farmer.

If we agree, and I think we must, that to farm successfully one needs an education that is directed toward that end, let us see how he is to receive that training. He can not get it at home, for his local schools make no provision for it, except in a very few cases. Too often he can not leave home to enter one of the two schools in this State that offer such instruction, either because his parents can not afford the expense, or because he is too young and immature to be sent off thus alone to look out for himself. In far too many cases the result is that the boy leaves school and becomes one of the great mass of ill-paid day laborers; or else he enters the high school, whose studies still in a large measure are shaped for those who intend to enter what we call "the professions." It is to remedy these conditions that a few high schools, located in rural communities, are making a beginning in the training of their students in agricultural practice, laying the emphasis on that line of agricultural endeavor which is predominant locally. The argument on which they base their right to exist and flourish is this (and I submit to you whether it is not a valid one): "The high school located in a rural community, or drawing largely upon the farming population for its pupils, needs no further reason for adding agriculture to its curriculum than that it is thereby more closely fitting its environment. When we consider the matter seriously, it seems incongruous that a high school in a small town, surrounded by a rich agricultural territory, should be devoting all its money and energy to instruction in language, history, mathematics, and a little science with not a word or a thought of the industry which gives the place its being, and with no correlation between the subjects taught and the live, throbbing heart of the whole community—its agriculture."

Is this not worth thinking about, especially in view of the large number of young men in our locality that are demanding such a line of training, and, where possible, going elsewhere to obtain it? What say you?

"I warn my countrymen that the recent great progress made in city life is not a full measure of our civilization; for our civilization rests at bottom on the wholesomeness, the attractiveness and the completeness, as well as the prosperity, of life in the country. The men and women on the farms stand for what is fundamentally best and most needed in our American life. Upon the development of country life rests ultimately our ability, by methods of farming requiring the highest intelligence, to continue to feed and clothe the hungry nations, to supply the city with fresh blood, clean bodies and clear brains that can endure the terrific strain of modern life; we need the development of men in the open country who will be in the future as they have been in the past, the stay and strength of the nation in time of war and its guilding and controlling spirit in time of peace."—Theodore Roosevelt.

A prominent man who resides in the mountains back of Los Gatos said in the presence of the writer that he drove into that town last Saturday and stopped to get his horse shod but found a full shop and a busy blacksmith. He then visited the other two shops where he found the proprietors themselves full. The gentleman proceeded to San Jose and got his shoeing done. Had he stopped at Campbell he would have found three sober, obliging and very capable workmen; and had his inner man needed attention, he could have had—not a sandwich with foam on it, but a good, square meal.

"Dog Gone" promises to be a familiar expression in Los Gatos hereafter, as the town marshal has purchased a "monkey cage" and hired a deputy to capture the supernumerary canines at fifty cents per head. The town board will next need to appoint a meat inspector. After deputy Camerrotti gets over the rush in The Cat City he can be kept busy for a few weeks on the streets of Campbell. We recently counted nine useless curs hanging around the bank corners.

The death of D. P. Simons at Los Gatos last Tuesday removes from our midst one of the most useful and highly respected citizens in Santa Clara conty. He was a representative of that high type of Christian manhood whose influence and benefactions were felt by all classes.

Registration closes on next Wedneeday, September 28. All those who have not placed their names on the roll since January 1st will need to do so within the next five days if they wish to vote at the fall election.

366 DAYS IN PRISON

A Series of Articles on Experiences in Andersonville Prison by I. Preston, Who Was a Prisoner of War for Over a Year

Chapter V

In the fall of 1864 at the time of the surrender of Atlanta, the rebels were very much alarmed for fear Sherman would march on the prison and release all of us and make all their troops prisoners, so they took all of them out of the stockade and took some to Blackshire and some to Charleston, N. C., for safe keeping. They were still starved and laid out in the cold and rains so that a great many died there that were not counted to our numbers of dead. P. C. Maxon of Minneapolis, Minn., was one that went there and he said they put our prisoners out under general Gilmore in the siege of Charleston where many of the men were killed by our own shells until Gilmore found out what they were doing and then the bombardment of the city ceased. As soon as Sherman's army passed Macon, Ga., the prisoners were shipped back to the old pen at Andersonville, there to find all their old caves and dens filled up. As the poor half-starved, ragged boys marched through the gates the second time after being told that they were going to Savannah and Charleston to be discharged or exchanged, they lost heart. Many of them were so discouraged that they died very much faster then before. We had been deceived many times before this and it proved fatal to many of the noble boys, which seemed to give great pleasure and comfort to those who had deceived us so many times.

In June, '64 I went from the stockade to the hospital grounds. During the month of June it rained most of the time as I have written in a previous letter. One day they brought out 300 sick and dying boys and laid them in the main street of the hospital grounds. The water ran down in torrents and many of the boys were drowned and died. The living were piled together in the sand and dirt. I was lying not fifty feet from them in between the roots of a pine tree so the water passed by me, while I was burning with a high fever. All night I lay there with that awful fever and the chronic disease of the bowels and thousands of those old Southern graybacks taking what little blood I had left from me. I could hear the dear boys struggling in the mud and water and calling for help but there were none to help for all were as I was, too sick to render any aid to our boys when in need. The next morning the wagon came in and took a load of them out to the trenches and at noon the same wagon came back with the sour cornbread for us to eat. It must last until the next day at noon or later. Some may criticise and call this false but I can prove all that I am telling and if there are any that have a doubt of the truth of this come to my house on Central avenue and I will show you all my books that have been written by learned men that were there. One work, written by Comrade Kellogg on Andersonville, contains an article written by myself and also pictures of myself and others. I will gladly lend these these books to any one who may wish to read them.

A great many people since the war have blamed our government for leaving us there to the mercy of our enemies who were so bitter toward us.

When I came home I was so reduced in flesh and blood that it was impossible for me to do any labor and it took me five years to get a new supply of blood, and I never gained back my former weight nor activity that I was blessed with before my capture. You would be surprised to see the pictures in my books of the poor boys in their emaciated condition. I hear men say that such suffering that our people at home, in the army, and in the horrible prisons went through was too much to keep this great government from disruption but while I suffered so much and saw so much it never has lowered my patriotism for my country and the old flag we fought so hard to maintain. I believe it is worth the price we paid and now if any nation or any people should assail this government I would do all in my power to keep Old Glory at the top of the pole or at the mast head of all our ships at sea. I have no use for a man that will not stand and fight for the country he lives in and the flag he lives under.

When I enlisted I believed my country was in danger for I knew we had brave men to contend with, so I took my chances with thousands of our noble boys, and left my home and young wife of a few months and went to the front not for the money there was in it. I knew it was not going to be a picnic but a real war, which it proved to be. Wherever my company and regiment were called to go I was there and had the experience of 16 hard battles beside as many or more of hardsharp skirmishes. My first was at York town and then to Fair Oak, Va. I have no wounds to chronicle in this writing except the wounding of my good health in that horrible prison den at Andersonville. I may forgive but never can forget.

(To be Continued next week.)

The Peninsular Railway has increased to the Coast Artillery Band, N. G. C., twenty-five pieces for their concerts at Congress Springs, to be given on Sunday afternoons only.

FOR SALE OR EXCHANGE

314 acres in Plumas County. 250 acres farming land, good for grain and ideal for dairying. Good ten room house, 4 large barns. Good deeded water right to 3-5 interest in small lake for irrigating purposes. Some good vegetable land. No question about the right man making good on this place. Price $15,000.00. Buildings insured for $7,000.00. Will consider good orchard property in exchange, particularly if it is in diversified fruits.

SUMMONS

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Santa Clara.

Nellie V. Hardman, plaintiff, vs. Roy L. Hardman, defendant.

Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the complaint filed in the office of the Clerk of said County of Santa Clara.

The People of the State of California send greeting to Roy L. Hardman, defendant.

You are hereby directed to appear and answer the complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this summons, if served within this county, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the county of Santa Clara, this 5th day of August, A. D., 1910.

(Seal) HENRY A. PFISTER, Clerk.
By R. K. O'Neil, Deputy Clerk.
L. D. Bohnett, Attorney for Plaintiff.
